Repeatedly tried it (going through the whole intro each time), it repeatedly crashes.. Seems like it's still in EA and definitely wasn't ready for release My first refund ever! 'Might' revisit in 6-12 months.. Finally starts, it didn't save, had to start over from the beginning, again, over and over.. Took 3 days for it to even start! Had to send log files to the dev, which got returned to me! (bad email address?) Second or third patch got it to actually start.. Now, it crashes in the exact same spot every time---the very first jump in the game.

'Might' revisit in 6-12 months.. ly/31TPOxdAbout This Game Gather resources, expand your ship, raise a strong crew, build defense systems and protect your people.. Reasonable story takes you through the basics of the game A really good buy at this price range.

A miraculously odd telescope reading or a blip in the noise But as we were watching them.. Build defense systems and protect your people Research and build technologies to protect your ship from the many threats of the galaxy.. Seems like it's still in EA and definitely wasn't ready for release My first refund ever! 'Might' revisit in 6-12 months.. It is the biggest force among the four fundamental interactions of nature, three others are electromagnetism, weak force and gravitation.. Robust Space Sim with some interesting Drone gameplay UI is fairly archaic but servicable. e10c415e6f
